

Save The Planet

Words and Music By Michael Droste

Sung by Jeff Walker

Verse 1: Birds in the air, Fish in the sea
Earth is so fragile, Watch it carefully
We pump waste into the rivers, The smog we cannot breathe
We've polluted our home, Its killing you 'an me

Chorus: Save the planet
Save the planet
Save the planet from destruction
(repeat)

Verse 2: You have to filter your drink water, We put hormones in our food
Corporate waste dumps, Are killing us too
We put garbage in the oceans, Scar the land and cut the trees
You gotta get involved and change what you see

Chorus: Save the planet
Save the planet
Save the planet from destruction
(repeat)

Bridge: (Spoken) You can help by reducing your energy and water consumption and recycling plastics and paper – with everybody working together we can turn this thing around

Chorus: Save the planet
Save the planet
Save the planet from destruction
(repeat)
